More than 4,000 ransomware attacks have occurred every day since the beginning of 2016. 10

1989 AIDS Malware First known ransomware

2010 WYLOCK Leveraging premium SMS

2013 THE REVOLUTION Anonymous online payments with Bitcoin

2015 PLOCK Cryptor ransomware, pretending to be Cryptolocker

2016 RANSOMWARE First demanding Bitcoin for payment

2017 ANONYMOUS First demanding Bitcoin for payment

2018 RANSOMWARE First demanding Bitcoin for payment

2019 RANSOMWARE First demanding Bitcoin for payment

# Diagramme de processus

## THE BODO SANDAL

### MIDSOLE

Made from FOAM, this is where all comfort and cushioning magic happens

### UPPER

This foam layer protects your foot from the outsole. Upper sole foot print indent adds a little extra to the design, but also helps keep your feet slightly more snug.

### TOE BED

The Flexible toe bed has been raised by 25mm not only for added style but also to help the sandal grip to your feet

### SANDAL SOLE

Sole is made from recycled vehicle tyres

Sandal sole has been tested for Friction (*Slip resistance*) and passed

The pattern of the tyre sole is designed to give you better traction, when walking on rough terrains

Sandal strap has been tested for strength and passed

### SANDAL STRAP

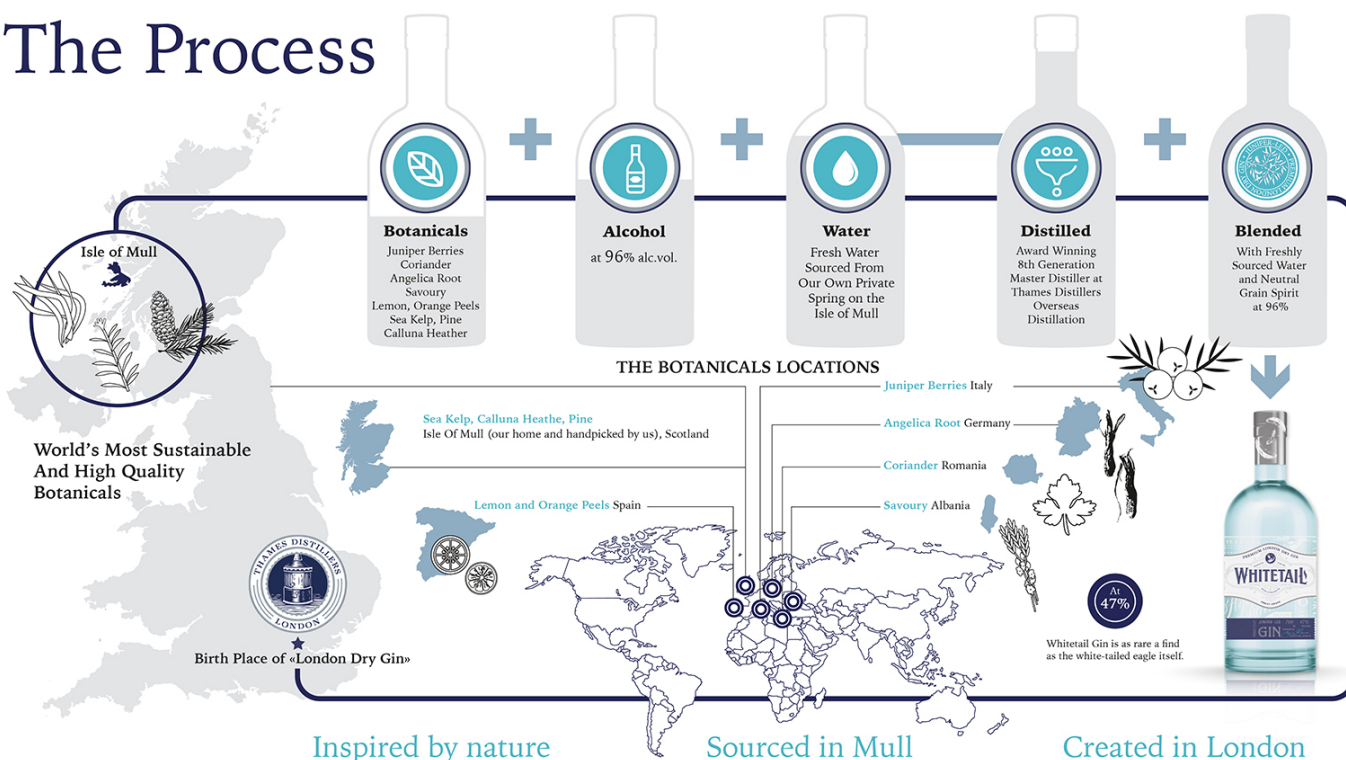

The wider your foot, the more space is needed here.

Toe Post has been tested for strength and passed

BODO Footwear will donate a pair of sandals to a person in need for each pair purchased.
